STRENGTHS

- Frontend architecture, feature boundaries and shared layers.
- Typed API contracts, DTO mapping and async loading/error states.
- Complex product rules: roles, permissions, forms, cache and state transitions.
- Technical requirements, backend/design alignment and delivery ownership.

EXPERIENCE

Frontend Web Developer

Nomad Games

Sep 2024 - Jan 2026

1 year 5 months

Bishkek, startup

Owned frontend delivery at a Bishkek indie startup building a free-to-play web platform for casual multiplayer board and card games inspired by traditional games from different countries. Covered architecture, API requirements, technical tasks, game flows and stable browser behavior.

React.js, TypeScript, Web games, Multiplayer games

Frontend Web Developer

DATAxWAY

Aug 2023 - Jun 2024

11 months

Bishkek, office

Built product interfaces, marketplaces, admin panels and SEO-oriented websites from scratch to production while keeping parallel projects maintainable.

React.js, TypeScript, Frontend architecture

Frontend Web Developer

GetByVerto

Aug 2022 - Aug 2023

1 year 1 month

Remote

Delivered Next.js product frontend remotely with typed backend contracts, predictable state and disciplined request handling.

Next.js, TypeScript

Frontend Web Developer

Welive Turkish Company

Jan 2022 - Jul 2022

7 months

Bishkek, office

Implemented frontend features for web products in a fast-moving product environment.

Next.js, TypeScript

Frontend Developer

Budgeting OAPISR

Oct 2021 - Jan 2022

4 months

Contract, remote

Built an internal bank budgeting system with formula logic, tables, branch rules, drag-and-drop and frontend-side auto calculations.

Budget systems, Bank branch logic

SELECTED PROJECTS

Casual Multiplayer Games Platform

Nomad Games

Frontend ownership for a free-to-play web platform for casual multiplayer board and card games inspired by traditional games from different countries.

React, TypeScript, TanStack Query, Zustand, Tailwind

Business Web Systems

DATAxWAY

Marketplaces, service websites and admin panels delivered to production with SEO and backend clarity.

React, Next.js, TypeScript, React Query, Zustand, Tailwind

Exchange Commerce

GetByVerto

Marketplace flows where users could pay with money or exchange goods, backed by SSR and state discipline.

Next.js, TypeScript, React Query, Zustand, Tailwind

Admin Commerce

Welive Turkish Company

Marketplace with roles and administration: legacy cleanup, performance fixes and clearer feature boundaries.

Next.js, TypeScript, Redux Toolkit, SCSS
